ABOUT COMPANY

A company with a purpose

Our goal is to unlock the extraordinary potential of light for brighter lives and a better world. We achieve this through living our values, innovation, passion for being environmentally friendly, and a desire to change people's lives.

We are continuously innovating in lighting and expanding the industry towards lighting systems in both the professional and consumer markets.

CEO STATEMENT

“Thank you” for your support and trust in us.

Bima-TN was formed with a focus on client requests, employees who are highly dedicated and competent in their fields, apply good business principles, control costs, and have a passion to be the best!

If we don't try to improve our efficiency, effectiveness, get complacent and we are complacent, we won't last long. Perseverance and commitment are the main keys to the success and success of a company.

OUR JOURNEY

PRESENT AND THE FUTURE

We are involved in building until road infrastructure planning, sports stadium and facade lighting with dynamic lights in one of our expertise.

2022

Our second year is more colorful, we have successfully completed several large-scale and small-scale projects, our team is getting more solid, the addition of professional labor is inevitable.

2021

Starting the first year of our company's establishment with a small number of employees, but we still believe in providing ideas in lighting design.

CORPORATE STRUCTURE

MISSION & VISSION

*Providing the best
service to wide
community.*

MISSION

Providing end to end solutions for customers by serving through excellent Product, Design and Application.

VISSION

Becoming Leading Company in EPC work application by put forward Project Innovations as basic principle.

Bima-TN creates a brand that has several values. These values represent us, which define us, our expertise and the way we work. This value also describes the services we provide to clients.

CORPORATE CULTURE

B BRILLIANT

Each day is an opportunity for a fresh start and new brilliance.

I INTEGRITY

Integrity is choosing to do what is right, even when no one is watching.

M MEASURABLE

The progress we can measure is the progress we can manage.

A ACTIVE

Take action, be the change you want to see.

We ensure that all the products offered are of high quality and we continue to innovate to improve the quality of service and performance of our team.

OUR SERVICES

Product Planning

Product planning refers to the process of developing a product strategy that defines the vision, goals, and objectives of the product.

Electrical and Civil Design

Electrical design and civil design are two distinct areas of engineering that are often used together in the construction of buildings and infrastructure.

Installation

Installation refers to the process of setting up or placing equipment, systems or software to its intended location and making it operational.

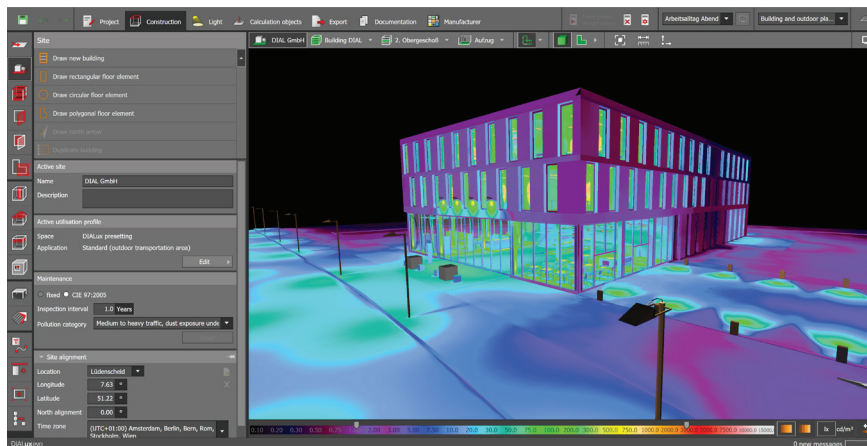

Testing Commissioning

Testing and commissioning refers to the process of verifying and validating the performance of a system or equipment before it is put into operation.

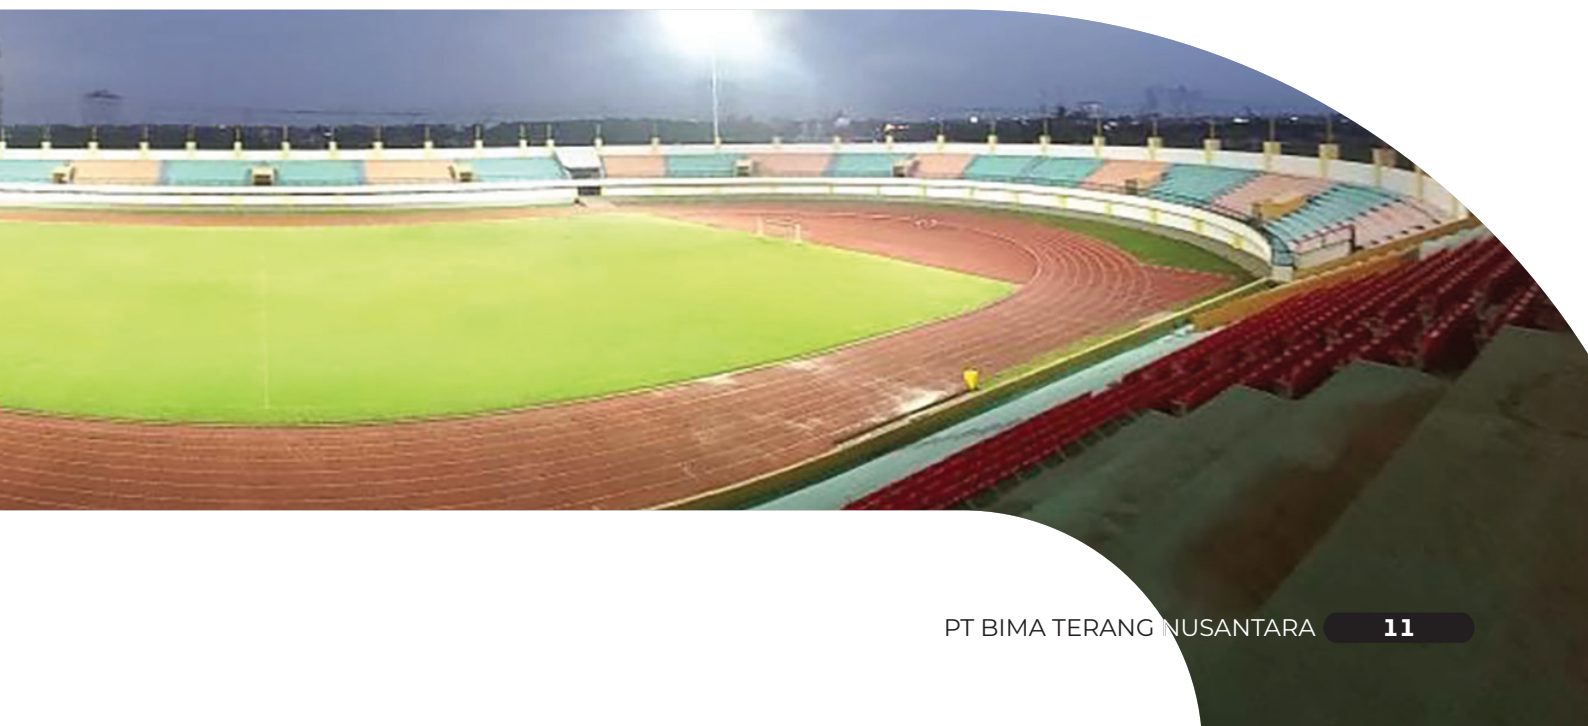

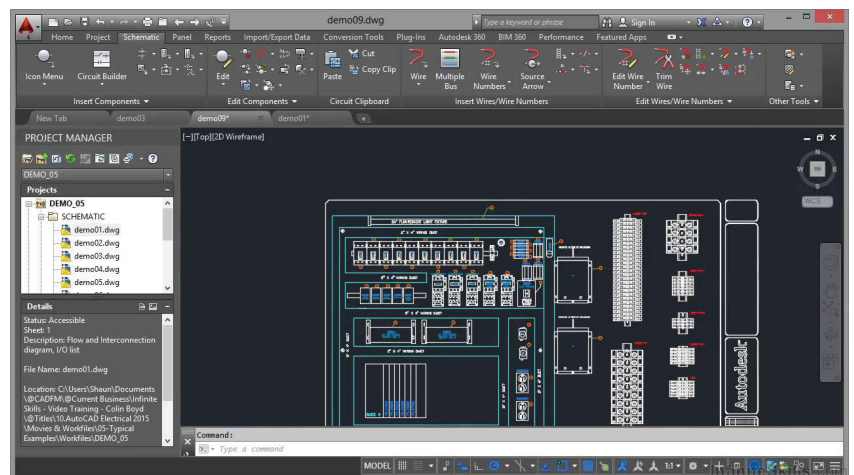

Product Planning
